ELSEVIER

European Journal of Operational Research 130 (2001) 679–681

EUROPEAN JOURNAL OF OPERATIONAL RESEARCH

www.elsevier.com/locate/dsw

Contents Volume 130

1 An easy way to teach interior-point methods
T. Terlaky

20 Leximin optimality and fuzzy set-theoretic operations
D. Dubois, P. Fortemps, M. Pirlot and H. Prade

29 Representation of consistent recursive rules
A. del Amo, J. Montero and E. Molina

54 Searching for joint gains in multi-party negotiations
H. Ehtamo, E. Kettunen and R.P. Hämäläinen

70 Flexibility in manufacturing systems: A relational and a dynamic approach
J. Pereira and B. Paulré

83 The effect of vertical integration on consumer price in the presence of inventory costs
D.J. Reyniers

90 NP-hardness of compact scheduling in simplified open and flow shops
K. Giaro

99 A dual control problem and application to marketing
G.E. Fruchter

111 Redistribution of funds for teaching and research among universities: The case of North Rhine-Westphalia
G. Fandel and T. Gal

121 Value efficiency analysis of academic research
P. Korhonen, R. Tainio and J. Wallenius

133 Optimal cropping patterns under water deficits
M. Haouari and M.N. Azaiez

147 Approximate solutions to the turbine balancing problem
L.S. Pitsoulis, P.M. Pardalos and D.W. Hearn

156 Strategic gaming in electric power markets
P.R. Kleindorfer, D.-J. Wu and C.S. Fernando

169 Human resource planning in knowledge-intensive operations: A model for learning with stochastic turnover
S.K. Bordoloi and H. Matsuo

190 On solving complex multi-period location models using simulated annealing
A. Antunes and D. Peeters

202 Implementation of a university course and examination timetabling system
M. Dimopoulou and P. Miliotis

PII: S0377-2217(01)00032-7

214 Fitting rectilinear polygonal curves to a set of points in the plane
J.M. Díaz-Báñez and J.A. Mesa
223 Ethical issues in modeling: Some reflections
J.P.C. Kleijnen
231 Editorial
E. Jacquet-Lagrèze and Y. Siskos
233 Preference disaggregation: 20 years of MCDA experience
E. Jacquet-Lagrèze and Y. Siskos
246 Comparative analysis of UTA multicriteria methods
M. Beuthe and G. Scannella
263 Using assignment examples to infer weights for ELECTRE TRI method: Some experimental results
V. Mousseau, J. Figueira and J.Ph. Naux
276 Constructing a monotonic quadratic objective function in n variables from a few two-dimensional indifferences
A. Tangian
305 Rough approximation of a preference relation by a multi-attribute stochastic dominance for deterministic and stochastic evaluation problems
K. Zaras
315 Multicriteria analysis in agricultural marketing: The case of French olive oil market
Y. Siskos, N.F. Matsatsinis and G. Baourakis
332 Project evaluation and selection in a network of collaboration: A consensual disaggregation multicriterion approach
M. Oral, O. Kettani and Ü. Çınar
347 Customer satisfaction measurement in the private bank sector
G. Mihelis, E. Grigoroudis, Y. Siskos, Y. Politis and Y. Malandrakis
361 A multidimensional approach to urban quality of life: The case of Istanbul
B. Ülengin, F. Ülengin and Ü. Güvenç
375 Multicriteria job evaluation for large organizations
A. Spyridakos, Y. Siskos, D. Yannacopoulos and A. Skouris
388 Conflict dissolution in the public sector: A case-study
C.A. Bana e Costa, F. Nunes da Silva and J.-C. Vansnick
402 A preference disaggregation decision support system for financial classification problems
C. Zopounidis and M. Doumpos
414 MCDA and preference disaggregation in group decision support systems
N.F. Matsatsinis and A.P. Samaras
430 The fuzzy p-median problem: A global analysis of the solutions
M.J. Canós, C. Ivorra and V. Liern
437 The use of Bayesian forecasting to make process adjustments during transitions
H. Black Nembhard and D.A. Nembhard
449 Variable neighborhood search: Principles and applications
P. Hansen and N. Mladenović
468 Cash management in a randomly varying environment
K. Hinderer and K.-H. Waldmann
486 A reduction result for location problems with polyhedral barriers
K. Klamroth
498 A slacks-based measure of efficiency in data envelopment analysis
K. Tone

510 On the collection depots location problem
Z. Drezner and G.O. Wesolowsky
519 The use of advance demand information in a project-based supply chain
K. van Donselaar, L. Rock Kopczak and M. Wouters
539 Structuring product development processes
R. Ahmadi, T.A. Roemer and R.H. Wang
559 A computational study with a new algorithm for the three-machine permutation flow-shop problem with release times
J. Cheng, G. Steiner and P. Stephenson
576 Comparison of three multicriteria methods to predict known outcomes
D.L. Olson
588 Measures of grouping efficiency in cellular manufacturing systems
B.R. Sarker
612 Benefits of co-operation in a production distribution environment
S. Gavirneni
623 A general model for automated business diagnosis
A.J. Feelders and H.A.M. Daniels
638 Minmax earliness–tardiness costs with unit processing time jobs
G. Mosheiov and M. Shadmon
653 Using fuzzy integral for evaluating subjectively perceived travel costs in a traffic assignment model
Y.-W. Chen and G.-H. Tzeng
665 On the maximum number of feasible ranking sequences in multi-criteria decision making problems
E. Triantaphyllou and B. Shu
679 Contents Volume 130
